| Texas New Mexico Power Delivery Charges  | 6.2927¢                      | per kWh           |                              |                  |                  |                                      |       |         |  |    |         |                                    |        |                   |                             |        |         |   |        |                   |   |         |         |
| <p>The average prices disclosure is an example based on the average monthly kWh usages indicated above. The average price is based on the usage profile for this TDU with 35% of consumption occurring at Free Nights per the formula below. Your actual average price per kWh will depend on your usage and the pricing components above. Free Nights hours are 11:00 PM to 05:59 AM. Daytime hours are 06:00 AM to 10:59 PM.</p> <p>Price Per kWh = ((Chariot Base Charge + TDSP Fixed) + ((Average Usage Tier x Daytime Usage % x Daytime Energy Rate) + (Average Usage Tier x Free Nights Usage % x Free Nights Energy Rate) + Average Usage Tier * (TDSP per kWh + ERCOT Securitization)))/Average Usage Tier</p> <p>The average prices shown above reflect all recurring charges, excluding state and local sales taxes. Some areas subject to a Texas New Mexico Power underground Facilities and Cost Recovery Charge authorized by the city that is not included in the price above. See Texas New Mexico Power tariff for a list of cities and authorized charges.</p> |                              |                   |                              |                  |                  |                                      |       |         |  |    |         |                                    |        |                   |                             |        |         |   |        |                   |   |         |         |
