

## Electricity Facts Label

Chariot Energy  
AEP Texas North Service Area  
Free Days 18  
August 1, 2025

### Electricity Price

| Average Monthly Use   | Average Price per kWh |           |           |
|-----------------------|-----------------------|-----------|-----------|
|                       | 500 kWh               | 1,000 kWh | 2,000 kWh |
| Average price per kWh | 16.5¢                 | 15.2¢     | 14.5¢     |

The above price disclosure is based on the following price components:

|                                         |         |                   |
|-----------------------------------------|---------|-------------------|
| Chariot Energy Night Time Energy Charge | 14.35¢  | per kWh           |
| Chariot Energy Free Days Energy Charge  | 0¢      | per kWh           |
| Chariot Energy Base Monthly Charge      | \$9.95  | per billing cycle |
| AEP Texas North Delivery Charges        | \$3.21  | per billing cycle |
| AEP Texas North Delivery Charges        | 5.2641¢ | per kWh           |

The average prices disclosure is an example based on the average monthly kWh usages indicated above. The average price is based on the usage profile for this TDU with 40% of consumption occurring at Free Days per the formula below. Your actual average price per kWh will depend on your usage and the pricing components above. Free Days hours are 10:00 AM to 04:00 PM. Night Time hours are 04:00 PM to 10:00 AM.

Price Per kWh = ((Chariot Base Charge + TDSP Fixed) + ((Average Usage Tier x Night Time Usage % x Night Time Energy Rate) + (Average Usage Tier x Free Days Usage % x Free Days Energy Rate) + Average Usage Tier \* TDSP per kWh)) / Average Usage Tier

The average prices shown above reflect all recurring charges, excluding state and local sales taxes. Some areas subject to a AEP Texas North underground Facilities and Cost Recovery Charge authorized by the city that is not included in the price above. See AEP Texas North tariff for a list of cities and authorized charges.

### Other Key Terms and questions

See Terms of Service statement for a full listing of fees, deposit policy, and other terms.

|-----------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| If the price can change, how will it change and by how much?          | The average prices shown above may change during the contract term only under the following circumstances: to reflect actual changes to the <b>AEP Texas North</b> charges; changes to the Electric Reliability Council of Texas or Texas Regional Entity administrative fees charged to loads; or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs that are outside our control. |
| What other fees may I be charged?                                     | Fees not included in price above: Disconnect Notice Fee: \$10; Insufficient Funds Fee: \$35; Disconnect Due to Non-Pay Fee: \$25; Late Payment Penalty: 5% of past due balances; please refer to the Non-Recurring Fees and Charges section of Terms of Service for a full listing of non-recurring fees.                                                                                                                                            |
| Is this a pre-pay or pay in advance product?                          | No                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Does Chariot Energy purchase excess distributed renewable generation? | No                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Renewable Content                                                     | This product is 100% renewable.                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Statewide average for Renewable Content                               | 35.2%                                                                                                                                                                                                                                                                                                                                                                                                                                                |
