### Electricity Price

| Average Monthly Use   | Average Price per kWh |           |           |
|-----------------------|-----------------------|-----------|-----------|
|                       | 500 kWh               | 1,000 kWh | 2,000 kWh |
| Average price per kWh | 16.2¢                 | 14.7¢     | 14.0¢     |

The above price disclosure is based on the following price components:

|                                            |         |                   |
|--------------------------------------------|---------|-------------------|
| Chariot Energy Weekdays Energy Charge      | 12.65¢  | per kWh           |
| Chariot Energy Free Weekends Energy Charge | 0¢      | per kWh           |
| Chariot Energy Base Monthly Charge         | \$9.95  | per billing cycle |
| Centerpoint Delivery Charges               | \$4.9   | per billing cycle |
| Centerpoint Delivery Charges               | 5.1461¢ | per kWh           |

The Average Price per kWh disclosure, above, assumes that 36% of the Average Monthly Use occurs during the Free Weekends hours, below. Your actual Average Price will differ from the above disclosures if your usage during the Free Weekends hours is more or less than 36% of your total monthly usage. Your actual average price per kWh will depend on your usage and the pricing components above. Free Weekends hours are from 12:00 AM Saturday to 06:00 AM Monday. Weekdays hours are 06:00 AM Monday to 12:00 AM Saturday.

Price Per kWh = ((Chariot Base Charge + TDSP Fixed) + ((Average Usage Tier x Weekdays Usage % x Energy Rate) + (Average Usage Tier x Free Weekends Usage % x Free Weekends Energy Rate) + Average Usage Tier \* (TDSP per kWh))) / Average Usage Tier

The average prices shown above reflect all recurring charges, excluding state and local sales taxes. Some areas subject to a Centerpoint underground Facilities and Cost Recovery Charge authorized by the city that is not included in the price above. See Centerpoint tariff for a list of cities and authorized charges.

### Other Key Terms and questions

See Terms of Service statement for a full listing of fees, deposit policy, and other terms.

|-----------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| If the price can change, how will it change and by how much?          | The average prices shown above may change during the contract term only under the following circumstances: to reflect actual changes to the <b>Centerpoint</b> charges; changes to the Electric Reliability Council of Texas or Texas Regional Entity administrative fees charged to loads; or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs that are outside our control. |
| What other fees may I be charged?                                     | Fees not included in price above: Disconnect Notice Fee: \$10; Insufficient Funds Fee: \$35; Disconnect Due to Non-Pay Fee: \$25; Late Payment Penalty: 5% of past due balances; please refer to the Non-Recurring Fees and Charges section of Terms of Service for a full listing of non-recurring fees.                                                                                                                                        |
| Is this a pre-pay or pay in advance product?                          | No                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Does Chariot Energy purchase excess distributed renewable generation? | No                                                                                                                                                                                                                                                                                                                                                                                                                                               |
